Subject: Microsoft Settlement

To Whom It May Concern:

I feel the settlement regarding this case is much too lenient. It still allows for the preservation of the company's monopolization tactics.

This was not the purpose of the suit. I feel ashamed to be living in a country where a large company's monopolistic market hold and tactics are considered outside the laws that affect all other companies. If the government cannot reign in this beast, then who can?

By not punishing this behemoth with more than what amounts to the court costs, there is no real punishment. Please reconsider your decisions before we are pledging allegiance to a flag with a Microsoft logo in each corner.
